

So What Is BOLT?

BOLT is our newest and most customizable children’s ministry curriculum that lets you design a kid’s Bible club based on the time you have available, what your kids need and the volunteer skill sets that are available in your church. This curriculum can help churches of any size minister to multi-age levels in a large group while retaining important small-group relational time. BOLT makes it possible to teach kids from first through sixth grade with the same Bible lesson each week.

Each component of BOLT, both Bible Exploration and Life Skill Training, is split into 4-6 lesson units, allowing you to hand-pick which Bible unit and which life skills are the best fit for your current needs and the ones your kids would love the most! BOLT can be used for a four to six week club program, Sunday morning Children’s Church, Sunday morning kid’s pull-out during the sermon, summer church camp, life skills training, large group/small group Bible study, small group Bible study, or one-on-one life skill training. Run one unit for a short period of time, or combine units to fill your calendar all year round!

What Does BOLT Stand For?

Bible Centered – God has given us His Word in order to equip us to learn to live like Jesus. (2 Timothy 3:16-17)

Outreach Focused – We are called to reach out into our community and share Jesus with everyone. (Matthew 28:19-20)

Life Skills Learned – We need to develop life skills as created beings, in order to do good, bless our community, build relationships, and share the gospel. (Ephesians 2:10)

Transformation Experienced – When we trust in Jesus, He transforms (or changes) us to be more like Him. (Romans 12:2)

Overview

Bible Exploration Units

Who Is God? – 4 Weeks	Who Is Jesus? – 4 Weeks	What Is the Bible? – 4 Weeks	What Is the Church? – 4 Weeks
