Individual Kits can be purchased by and for individual family use. Churches wishing to equip families with this discipleship tool may also purchase kits on behalf of their families at a discounted bulk rate. Churches purchasing a minimum of 5 kits may also choose to “add-on” the Sunday School Curriculum component, which complements what families will be going through at home together. Both preschool and elementary level lessons are provided for each 13-week period. Below, you will see charts to help you calculate the cost.
